

DCI/IC 1594/75

12 June 1975

MEMORANDUM FOR: PD/DCI/IC

SUBJECT : DIA Planning: The JIPORD

1. DIA/DP is in the process of developing a new planning document - the JIPORD (Joint Intelligence Priorities, Objectives, Resources Document). The JIPORD replaces several other planning documents including the JSOP Annex on Intelligence. The JIPORD contains three parts:

Part I - Priorities (DCID 1/2)

Part II - Objectives (in sync with the  
DCI's Objectives)

Part III - Resources

An outline of what will be included in Part II is in Attachment A of this memorandum. There is a 20 minute briefing on the JIPORD which is given by Col. G. Peterson, DP, ext. 59100.

2. Another 20 minute briefing on overall DIA planning is presented by Mr. Al Munn, DP, ext. 59457.

3. DIA seems to be making a concerted effort to put into perspective their planning documents. The DIA documents and analogous DCI planning documents are shown in Attachment B. Logical next steps might be to (1) interrelate the documents (including the INT Plans) (2) study the publication date of documents so that they are released on a timely basis useful for program development (3) study the relationship between planning documents and resource decisions and (4) study the relationship of short mid and long-term planning documents and their utilization.
